

HELICOPTER TOURS

Customised Flights and Tours

We are happy to customise any of the tours shown here or create a tour to meet your requirements. We have created flights for:

Birthday Parties, Anniversaries and Christmas Parties:

It's always a great surprise when the chopper turns up and takes big groups for a whirl. Blow your guests away!

Team Building:

PHL will put your team through its paces. For a great team building day we have got lots of fun activities incorporating helicopter flights between the venues. If you are needing a pick me up this is the one!

Weddings and Wedding Photo Packages:

Make your wedding day an exhilarating experience by incorporating a flying adventure. Get your photos in Westland's most exotic natural locations. This trip will have you fizzing on your wedding day!

Hunting and Fishing Trips:

We have day and overnight hunts. Deer, Thar and Chamois. We can take you fishing for Brown or Rainbow Trout. Westland has it all, bring it on!

The Weather up There:

Although we can fly in most conditions, the weather has to be good to get the most out of your experience. Should the weather turn poor, we can simply move your flight to a later time or date to suit you.

Air Time Charges:

Each helicopter is charged at an hourly rate (or part thereof). This rate can be divided between the number of passengers the helicopter can carry.

The tours detailed in this brochure are at fixed rates. Other tour charges will vary depending upon the type of helicopter being used and air time involved. We only charge for flight time.

Safety is Paramount:

Before boarding your flight, you will be given a comprehensive safety briefing. We operate under a CAA audited exposition. All PHL helicopters are safe, modern, reliable and maintained by two external accredited maintenance providers.

PHL Pilots are all highly experienced. Rest assured you will be flying in very safe hands!

West Coast Helicopter Tours

by Precision Helicopters Ltd

From our base in Hokitika, we provide superb scenic flights over most areas of the West Coast's natural beauty. All PHL pilots have good local knowledge and will be able to assist in choosing the best flight to fit your time, plans and budget.

All our helicopters have forward facing seats and every passenger can see through the front. In many cases, we can hover or land to allow our passengers to take in the breath-taking sights and surroundings.

Anticipation, apprehension, excitement, delight - experience all these emotions with the thrill of helicopter flight.
